

# Cegos Switzerland is growing

Cegos Swiss ([www.cegos.ch](http://www.cegos.ch)) has an availability for the 1<sup>st</sup> of May 2012 as a

full-time

## Computer Programmer: Multimedia, eLearning (female/male)

### You:

- A proven and documented experience of at least 3 years in multimedia programming, especially eLearning (LMS, LCMS, Document Management, Internet Technologies, HTML, HTML5, Multimedia programming tools)
- Excellent hands on experience of several years with multimedia assets (video, audio-voice over) and eLearning/interactive development tools
- Multimedia production know how: asset integration/manipulation, video, sound, voice-over
- Proven project management skills in multi-cultural and virtual teams
- Excellent client facing skills for delivering a high quality customer service: proactive, open, flexible
- Very good English language skills which allow you to communicate effectively in English with clients and staff worldwide (and one other European language: French, Spanish, German)

### The Challenge:

- Responsibility and independence for programming and delivering high end eLearning and multimedia solutions and services
- Wide variety of subject matter: HR-Performance development, Management & Leadership, Sales, Negotiation, Project Management, Interpersonal skills, Purchasing
- Interface with the Client and Cegos International Virtual teams to best understand the objectives and propose the best pertinent technical services
- Successful technical design of various eLearning services and solutions according to scope, budget, timeline and requirements

### Us:

- A very international environment and activity: more than 70% of our projects are international and the majority of our services are delivered outside of Switzerland
- High level contacts: our clients are often EMEA or Global L&D Managers
- Teamwork: selling and delivering together in proven partnership with the Swiss Key Account & back office teams
- Team spirit: a young challenging team able and willing to accompany us into the future of L&D
- High quality living environment: based in our Geneva office (you would be living in or close to Geneva)
- Skiing, sailing, hiking, hang gliding, biking and wine tasting are just some of the extracurricular activities our team members enjoy when they are not working
